

Name: Krista Dounetos

Grade/Subject: Development Coordinator

Number of years working at CKS: 2025/2026 is my first official school year with CKS.

About me:

I am thrilled to be the new Development Coordinator at CKS!

I am so excited to contribute my learnings from my many years of customer service, leadership, marketing and merchandising to growing this brand new role for CKS.

I am passionate about creating impactful connections and collaborating with students, families, faculty and staff to make Christ the King School the best it can be.

Outside of work, I love spending time with my family and friends, cruising in my red Volkswagen convertible, spending time at the lake and the beach, reading, learning new things and keeping my houseplants alive.

Please feel free to stop by the office and introduce yourself. I look forward to meeting you.

Why CKS:

The mission of CKS to develop the whole person spiritually, academically and physically to build a foundation for life resonates deep in my core.

Bishop McDermott says "At Christ the King School we not only nurture the mind, but we nurture the heart."

Having been part of this amazing school community as a parent and volunteer since 2020, I am honored to now have the opportunity to contribute and make an impact at the next level.

What a powerful mission to be a part of!
