

Name: Mary Sherwin

Position: School Nurse

Number of years working at CKS: I am beginning my 33rd year at CKS

About me:

I have been a nurse for 49 years and began working at CKS in the fall of 1991. I love my profession. I love my job. I love my career.

Why CKS:

I love being a part of the health care of the children. I love watching them progress in learning - in many cases from age three to age 14 - how to explain their individual concerns to me regarding whatever ailment they have. That progress is astounding. For the most part, the children know what is going on with their bodies and how they should feel and not feel. There are ALWAYS teachable moments in my office with every child. I also love that CKS incorporates prayer throughout the day. The children are definitely attuned to prayer and are focused on it even in my office . Even when a child does not feel well, he or she will pause to listen or try to participate if there is a prayer being recited over the intercom. Prayer has a HUGE POSITIVE impact on everyone at CKS.
