

**2025-2026**

### **CKS Grades 5, 6, 7 & 8 Chromebook Policy**

The focus of the Chromebook program at Christ the King School is to provide tools and resources for the 21st Century Learner. Excellence in education requires that technology is seamlessly integrated throughout the educational curricula.

Increasing access to technology is essential to build upon college and career readiness skills. The individual use of Chromebooks is a way to empower students to maximize their full potential and to prepare them for college and the workplace.

Learning results from the continuous dynamic interaction among students, educators, parents and the extended community. Technology immersion does not diminish the vital role of the teacher. To the contrary, it transforms the teacher from a director of learning to a facilitator of learning. Effective teaching and learning with Chromebooks integrates technology into the curriculum anytime, anywhere.

#### **Guidelines for Technology at Christ the King School, Rutland**

As with any technology used at school, all students will be expected to follow the Student Code of Conduct.

CKS encourages you to investigate your child's technology account just like you would read and assess other work that your child completes for school.

- Access to technology is a privilege, not a right.

- Students should NEVER share their passwords with anyone. Students will be held responsible for any action taken in their name.
- For safety reasons, all parent/student communication during the school day should occur through the office.
- There is no expectation of privacy.
- Parents and students should understand that CKS uses GoGuardian to monitor Chromebook use at school.
- Chromebooks cannot be used outside the classroom unless directed by a teacher.
- Each student is issued a Chromebook at the beginning of the school year.
- Families will be expected to pay for damage to Chromebooks. Here are the costs associated with most common damages:
  - Broken screen \$50
  - Broken trackpad (mouse) \$25
  - Computers with missing keys, broken hinges, broken head jack, or a damaged case will need to be replaced completely.
- The cost for a new Chromebook is approximately \$400.

**Christ the King School**  
**Chromebook Contract**
